Completed 2025
with distinction

EXPERIENCE

4 years
on site

AVAILABLE

From 1 Nov
4 weeks notice

TRAVEL

Assembly work
fine, Mon–Fri

01 WORK

Electrical Technician

SEP 2025 – PRESENT

Mayrhofer Elektrotechnik GmbH · Steyr · 34 employees

- Installation and maintenance of switchgear and control cabinets for two regional food producers. Mostly Siemens S7, some older Moeller.
- On the standby rota one week in four. Longest single callout so far: a jammed conveyor at 03:40, back running by 05:10.
- Took over the material ordering for our two-man team because the paperwork kept getting lost.

Apprentice, Electrical Engineering

SEP 2021 – AUG 2025

Mayrhofer Elektrotechnik GmbH · Steyr · plant and building systems

- Four-year apprenticeship, final examination passed **with distinction** in June 2025.
- Second and third year mostly on new-build sites: cable routing, distribution boards, testing and handover documentation.
- Represented the company at the regional apprentice skills competition in 2024, placed fourth of nineteen.

Summer work

2019, 2020

Hauer Bau · Sierning · construction labourer, two summers

02 WHAT I CAN DO

ON MY OWN

- Wiring and commissioning distribution boards up to 63 A
- Fault finding on control circuits with a multimeter and a plan
- Cable routing, trunking, core drilling, making good
- Measurement protocols and handover paperwork (ÖVE/ÖNORM E 8001)
- Talking to the customer on site without needing the boss

WITH SOMEONE SENIOR

- PLC programming beyond simple changes to existing S7 blocks
- Medium-voltage work
- KNX planning (I can install and commission, not design)
- Photovoltaic systems, one installation so far

CERTIFICATES

Lehrabschluss Elektrotechnik	2025
Forklift licence	2024
First aid, 16 h	2024
Working at height	2023
Driving licence B	2021

SCHOOL

Berufsschule Steyr 2

Electrical engineering, 2021–2025. All four years passed first time.

Polytechnische Schule Sierning

Technical stream, 2020–2021

LANGUAGES

German

Native

English

School level. Enough for a manual, not for a meeting.

OUTSIDE WORK

Volunteer fire brigade Sierning since 2019, technical group.

Rebuilding a 1994 Puch moped in my parents' garage. Currently stuck on the wiring loom, which is funny.
